

Posterior Uveitis

Causes

Chororetinitis with vitritis

Infectious

- [Acute retinal necrosis \(ARN\) \(HSV, VZV, CMV\)](#)
- [Diffuse unilateral subacute neuroretinitis \(DUSN\)](#)
- Cysticercosis
- Infectious endophthalmitis
- Onchocerciasis
- [Progressive outer retinal necrosis \(PORN\)](#)
- Syphilis
- Toxocariasis
- Toxoplasmosis
- Tuberculosis

Inflammation

- [Birdshot choroidopathy \(vitiliginous chorioretinitis\)](#)
- Multifocal choroiditis with panuveitis
- Sarcoidosis
- [Sympathetic ophthalmia](#)
- [Vogt-Koyanagi-Harada syndrome \(VKH\)](#)

Neoplastic

- Lymphoma

Chorioretinitis without vitritis (usually)

- Neoplastic (metastasis)
- Ocular histoplasmosis
- Onchocerciasis
- Serpiginous choroidopathy
- White dot syndromes:
 - [Acute multifocal placoid pigment epitheliopathy \(AMPPE\)](#)

- Acute retinal pigment epithelitis (ARPE)
- Multiple evanescent white dot syndrome (MEWDS)
- Punctate inner choroiditis PIC

Vasculitis

- Beçhet syndrome
- Systemic lupus erythematosus
- Polyarteritis nodosa
- Wegener granulomatosis
